Bakery Display Cases

Refrigerated Bakery Cases

Patented Self-Cleaning Condenser

This product is equipped with a fine mesh filter to the front of the condenser to catch dust, and a rotating brush that moves up and down daily to remove excess buildup outward and away.

Model : TBP60-54FN-S

═ FEATURES & BENEFITS ═

■ *Self-Cleaning Condenser*
The accumulation of dust in the condenser can cause the failure or breakdown of refrigerators. Refrigerators run normally until they reach a certain level of accumulation. At some point, when they are over the limit, their performance drops quickly resulting in damage to, or disposal of the stored products inside. The Self-Cleaning Condenser device keeps the condenser clean and prevents system failure by automatically brushing daily.

■ *Hydrocarbon refrigerants (R-290)*
With innovative and eco-friendly technology, Turbo Air brings you hydrocarbon refrigerators designed to meet DOE's Energy Conservation Standards in 2017 and to use EPA's SNAP Program approved HC refrigerants. Hydrocarbon refrigerants do not deplete the ozone layer and have very low contribution to global warming (ODP-0, GWP-3).

■ *Attractive, elegant, glass sided Euro design*
Straight, tempered front & side glass with minimal frame provide full product visibility to optimize display effects. Its elegant contemporary euro design and luxurious colored case will not only enhance any store atmosphere but also will keep product presentation at its best and most beautiful.

■ *High-density polyurethane insulation*
The entire cabinet structure is foamed-in-place using high density, CFC free polyurethane insulation.

■ *Sliding rear doors and front glass opening*
Sliding rear doors make it easily accessible and convenient to arrange products. These doors are built to withstand constant sliding open and close. The front glass opens just enough to clean the interior effortlessly.

■ *Digital temperature controller*

■ *Double pane glass is tempered for safety (Front heated glass)*

■ *Adjustable, tempered glass shelf with AL front and back edges*

■ *Stainless steel exterior and airflow grille*

■ *Front glass door with aluminum frame*

■ *Bottom glass shelf is white with a mirror finish*

■ *Rear access to compressor compartment for quick and easy service*
