Options:

- /BA Solid Bottom - Aluminum
- /A Solid Top - Aluminum
- /009 Pam Stop - Aluminum (rear)
- /015 Pan Stop - Web Strap (front)
- /S Solid Top - Stainless Steel (rear)

APPLICATIONS: This rack is bolted to a wall to accommodate 5, 6 or 10 sheet pans. Great space-saving design with sizes to accommodate half size pans (13" x 18") and full size pans (18" x 26"). NOTE: use proper mounting hardware based on construction / materials of mounting surface (mounting hardware not included).

CONSTRUCTION: Frame is constructed of 1" high tensile strength aluminum type 6063-T3 alloy.

TRAY SLIDES: Slides are 1" x 1-1/2" x .10" high tensile strength extruded aluminum alloy type 6063-T3, heli-arc welded to frame. Bottom load design.

****Custom Sizes Available**
