

# LESS ENERGY

# MORE SAVINGS

## The Toaster Damper Kit

Save energy and money with the Toaster Damper Kit. It installs easily on all models of the Vertical Contact Toaster. Also available with a heat shield, the Damper Kit provides immediate and significant energy savings by containing the heat generated within the toaster. With a Damper Kit, a Vertical Contact Toaster:

- Consumes half as much energy in the idle state.
- Uses 22% less energy when cooking.
- Gives off half as much average heat gain to space.
