## THERMAL AIRE III™ *Individual Meal Patient Tray*

### Woodgrain Pattern for An Enhanced Meal Experience

The Thermal Aire III retherm solution has long set the industry standard for delivering patient meals at their optimal temperature so patients get the crucial nutrition they need. And now the high heat reusable tray comes in a light woodgrain design inspired by hotel and restaurant aesthetics that's sure to enhance the patient meal experience. It's also great for concealing the wear and tear that's typical with patient meal trays. As with our other color options, the woodgrain high heat reusable tray is durable, features a raised edge to keep tray top items in place, and has a stackable design for efficient storage. And the middle flat channel allows the high heat reusable tray to slide into the center panel of our Dinex Meals On Command™ and Thermal Aire retherm units to maintain proper hot and cold temperatures until ready to serve.

The high heat reusable tray measures 13" x 21" with 24 trays per case. They feature a one-year manufacturer limited warranty.

### Features & Benefits

- **New Light Woodgrain Pattern:** Enhances patient meal experience while effectively concealing typical wear and tear
- **Withstands High Heat:** Temperature safe up to 280°F
- **Pairs Perfectly:** Ideal for use with the Meals On Command, Thermal Aire II™ and Thermal Aire III retherm carts
- **Stackable Design:** Trays easily stack together to conserve space
- **Durable Construction:** Resists breaking and scratching when used as intended
- **Easy Care:** Commercial dishwasher safe and three compartment sink compatible makes cleaning a cinch

We do not accept returns on any Dinex equipment or Dinex custom products. Please contact your local Dinex rep to ensure order accuracy prior to ordering.

Elevates the patient dining experience while hiding normal wear and tear

Stackable design saves space

Durable construction resists breaking and scratching

Raised edge keeps meal items in place during delivery

Middle channel feature pairs with Meals On Command and Thermal Aire retherm carts to keep hot side hot, and cold side cold

Solutions

### Thermal Aire III Individual Meal Trays

Ensure every meal you serve is hot and fresh when served on high heat reusable trays! These high-quality trays are designed for use in Meals On Command and Thermal Aire retherm systems. Each tray offers a sturdy design with a raised edge and a flat channel in the center which slides into the center panel of retherm units, keeping the cold side cold and the hot side hot. Make meal delivery easy and efficient while delivering quality meals to guests on these high-heat trays!

### Features & Benefits

- **Double-Sided Design** - Features a channel in the middle and supports double-sided cold and hot retherm applications
- **High Heat Application** - Suitable for high temperatures
- **Retherm Use** - Designed for use in Thermal Aire III and Meals On Command II retherm systems
- **Raised Edge** - Provides a subtle barrier to keep traytop items contained
