The **inside** story on the new **Chemical/TEE**

Streamline your chemical dispenser connections with the new Fisher Chemical Tee.

- ❶ **Attractive design, not a clunky pipe “Tee” and multiple fittings** – attaches to top of pre-rinse riser pipe, replacing current spring-stop adapter
- ❷ **Less obstruction / no need for a longer hose** – adds only 1” to overall height of existing pre-rinse unit
- ❸ **Fits ALL brands** (Included thread cover to be removed allowing for external thread connection)
- ❹ **Commercial durability** – ALL SS construction
- ❺ **Speeds installation / reduces plumbing labor** – fewer connections needed to attach to chemical dispenser
- ❻ **Flush mount 3/8”NPT plug included**
