Equipment Stand - Modular

Designed to hold heavier equipment that doesn't have its own legs or base such as griddles, broilers, ovens and steamers. These stands are shorter than work tables, so the equipment they hold will sit at a comfortable working height. Top and undershelf have raised marine edges to provide a secure resting area for equipment so it's less likely to slip or slide off.

Optional 5" stem type casters allow the stands to easily be wheeled around to different parts of the kitchen and stored away when not in use. This is particularly helpful if you find yourself using equipment on a seasonal basis or only during certain times of the week. It's also great for allowing multiple work stations to use a single piece of equipment, like a mixer or slicer.

- Ships "KD" (knocked down) for easy assembly with Allen wrench (included).
- One-Year Guarantee against material defects and workmanship.
- Lifetime Guarantee against rust and corrosion.
