Product Description:

The Empura E-FW1200 is a full size countertop food warmer with a sturdy stainless steel construction, 4" maximum pan depth capacity, and manual thermostatic temperature controls. This countertop food warmer features 1 full size 12" x 20" well that functions as a hot water bath with a temperature range of 80°F - 160°F that holds food product at a servable temperature. This model is very easy to clean and comes with a NEMA 5-15P plug.

Intended For Commercial Use Only. Empura assumes no liability for component failure, factory defects or any other damages for units installed in non-commercial foodservice or residential applications.

About Empura Food Warmers:

Empura countertop food warmers are the perfect choice for any restaurant owner who is looking to expand their heated holding capacity or add the ability to serve hot soups and other dishes on demand. Sturdy and durable stainless steel construction & steady holding temps make these countertop warmers the ideal option for business owners. You can trust Empura countertop warmers to keep your product fresh and ready to serve!
