

DXPRIU6411
Shown with optional solid bottom
and wrap-around bumper

Series DXPRIU aluminum universal guide, open roll-in racks to accommodate 18" x 26" sheet pans or 12" x 20" food pans, for use in refrigerators and freezers.

FRAME

The vertical uprights and the top and bottom cross bracing are 2" x 1" x 1/8" thick extruded aluminum channels, welded to form a rigid frame. Each vertical upright is fabricated with a series of obtuse angle slots, 1-5/8" on centers, to receive and contain the guides. Caster support channels are 1-7/8" x 4" x 1/8" thick extruded aluminum, fully welded to the vertical uprights and bottom cross supports.

GUIDES

The two level guides are 1/2" x 1" x 7/8" x 3-1/8" x .105" thick extruded aluminum, with all corners chamfered and deburred. They are easily removable and are securely held in position by a series of obtuse angle slots, 1-5/8" on center, which are punched in one wall of each channel upright.

TIE ROD

All models have 1/2" diameter aluminum tie rods welded to the front and rear vertical uprights for extra rigidity.

CASTERS

The units are mounted on four 5" diameter, heavy duty, swivel casters.
