KEY PRODUCT FEATURES AND BENEFITS

- All stainless steel interior ensures consistent cabinet temperature and hygienic easy to clean environment that will not absorb odors over time
- Full extension, smooth glide shelving gives easy access to product and faster, more ergonomic product loading
- Ultra-quiet and energy efficient smart compressor – compressor ramps up as additional cooling is needed maximizing energy savings while decreasing pull down time
- NSF rated digital controller allows for precision temperature setting and features and audible door alarm, alerting the operator if an intrusion will not allow the door to close
- Open shelf design allows cold air to surround product reducing temperature variation in the cabinet and extending product life
- 525 BTU/hr fast pull down of product to serving temperature

Quick Features:
- 2" foamed-in-place eco-friendly insulation provides energy savings with zero ozone depletion
- Smart defrost cycle runs only when needed, increasing energy efficiency over standard systems
- Selectable white or blue LEDs provide crisp line of sight to product
- Black vinyl door panel can easily be removed to allow a custom wood overlay to be applied
- Custom door are customer supplied – see perlick.com for door overlay templates
- Field reversible door allows for easy replacement or re-purposing
- Door lock standard to secure contents
