WATER QUALITY STATEMENT

The fact that water is potable is no guarantee that it is suitable for espresso machines. Your water supply must be within these general guidelines:

SUPPLY PRESSURE: 30-70 psi

HARDNESS: 2-3 GPG*

*17.1 ppm = 1 grain of hardness

Water entering the espresso machine should have a water hardness level of 2-3 GPG at all times. If the water supply is not within this range, a dedicated water softener is required for the espresso machine to operate correctly over time.
