

GOLD MEDAL® PRODUCTS CO.

2396 Heated Line kit

Model No. 2396-HL-200

Specifications

2396 shown for topping line reference (Heated Line and Topping Dispenser sold separately).

Description:

Heated Line option (sold separately) for a 2396 (-200) Series Topping Dispenser.

- Replaces existing topping line to pedestal.
- Heated line is powered by the topping dispenser; wire harness plugs into the dispenser's control box.
- Dual pedestals use a separate heated line for each pedestal.

Features:

- 8 foot long, includes in-line strainer and rope heater pre-assembled (ready for installation).
