## ***Bottle Racks for Non-Potable Ice***

BR3, BR4

**BR4**  
(Bottles not included)

**BR3**

### ***Product Information***

Bottle Racks are vinyl-coated wire racks that are placed in an ice bin to hold ice chilled mix ingredient pour and store bottles. There are two sizes of wire racks: 3-bottle, model number BR3, for 19" deep ice bins and 4-bottle, model number BR4, for 24" deep ice bins.

Bottle Racks are intended for use with smaller ice bins, where the sole purpose of the ice bin is to provide insulated storage for pour and store bottles. Since bottle racks allow the ice to touch the bottles, they are not recommended for bottle storage inside potable ice bins used to make cocktails (use bottle wells shown above for potable ice). Bottle racks are most often used with 6" or 12" wide ice bins, which hold one or two racks, respectively. For example an IBA-6 ice bin holds one BR3, while an IBA-12 ice bin holds two BR3.
