Divider Bars – Configuration Sheet

Divider Bar Configuration in Mega Top Prep Tables

Center divider bars have notches to accept interlocking side divider bars.

- Provides stability for pan placement by preventing side bars from sliding out of position that could allow pans to fall into cabinet below.
- Increased flexibility for user because center notches allow user to easily re-configure bars to accept desired pan sizes for their unique menu.
- Made of high quality stainless steel insures long life.

↻ Pan Capacity on the front...
