

28" WIDE COUNTERTOP WARMER • PASS THROUGH • MADE IN USA

Model PGW-5

The Cadco PGW-5 pass & go countertop warmer features a reach-through design with a space-saving small footprint.

With independent top and bottom thermostat controls, holding temperatures can be fine tuned for optimal serving temperatures - perfect for grab & go items such as sandwiches and snacks.

With a wide-open design, the kitchen is able to load food products from the back, with the customers able to grab their desired food from the front.

Cadco offers 3 different sizes of pass & go warmers, and all warmers can even be stacked, for maximum output with minimal footprint.
