

DELFIELD®

A Welbilt Brand

Specification Line®

Delfield is revolutionizing the reach-in category with its new Specification® Line that offers customers 24/7 connectivity, ease of operation and energy efficiency.

New Specification Line®

Get Connected

Delfield's new Specification Line connects you 24/7 and provides peace of mind operators need. The control and app keep you connected offering all the data you need for health, safety and beyond. What's more, you receive alarm notifications on your phone or tablet in case there is an issue that needs your immediate attention.

Delfield's new Specification Line equipment is designed to make your life easier by staying connected and allowing you to use your time to focus on your business and grow your profits.

Easy to Use with easyTouch®

- easyTouch® color 4.3" touchscreen display
- Passcode protection
- Alerts sent directly to smartphone or tablet
- Remote monitoring of data and equipment
- Service providers can analyze data history and review equipment remotely

Form Follows Function

- Sleek styling featuring stainless steel finish
- Panoramic LED lighting
- Streamlined full-length door frame handles
- Large full color display screen that is easy to read
- Tool-less removable gasket
- ABS plastic interior door liner

Energy Efficient

- GreenGenius® hydrocarbon refrigeration system
- Top mount system maximizes internal storage space & improves maintenance access
- This new natural R290 refrigerant system maximizes refrigeration efficiency, energy savings and protects the environment
- All of our solutions are designed with energy savings in mind and most of them are ENERGYSTAR® listed.

Get connected with Delfield's Specification Line and spend your time worrying about other details, we've got your refrigeration covered!
