We reserve the right to change specifications and product designs without notice. Such revisions do not entitle the buyer to corresponding changes, improvements, additions, or replacements for previously purchased equipment.

✓ AUTO FILL PUMP SYSTEM

Complete Electric Pump System - with recirculating timer are installed on a stainless steel platform, which sits on the lid of the mix vat. Simply plug into a 115 V. outlet and it's ready to go. The S.S. Pump Platform fits into a slot on the handle for easy storage when filling, cleaning or transporting mix vats.

✓ EASY CLEANING AND OPERATION

Recirculating Timer - Set timer to turn pump every hour for up to two 15-minute intervals to insure product is completely mixed.

Easy Cleaning and Filling - Simply roll the Mix Vat Cart to the sink area to wash, sanitize, and refill vats. No heavy lifting of mix containers to refill machine.

✓ MAXIMIZE YOUR PROFITS

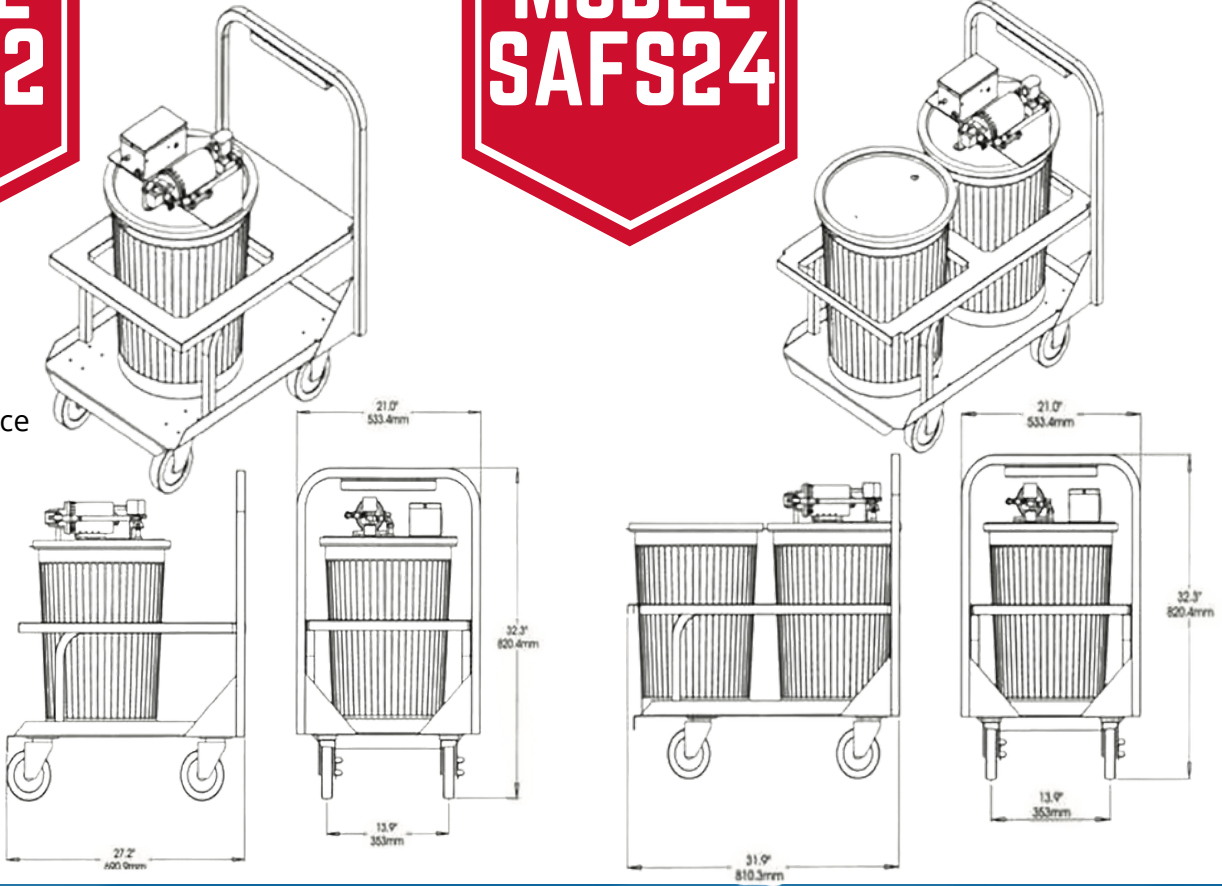

Consistent Product Quality - Combine efficiency, product quality, cost control, ease in use and simplicity of operation. Always have product available during peak hours of operation.

✓ COMPACT DESIGN

The small footprint easily fits into any operation using a minimum of cooler space.
