CAPACITY

Approx. 75-150 trays, 500 napkins, 35-40 pieces of silverware in each cylinder.

FRAME AND BODY

The frame is constructed of all welded heavy gauge stainless steel. The body sides are stainless steel. The sloped top is stainless steel, cut out to accommodate optional round silverware cylinders and one furnished napkin dispenser (see specification on Page D-11). DISPENSING MECHANISM

The tray carrier, constructed of all welded 16 ga. stainless steel, is raised by a series of coil springs attached to the frame.
