Chemical Sanitizing Dishwasher / Glasswasher

WARNINGS:

• Plumbing connections must be made by a qualified service company who will comply with all available Federal, State, and Local Health, Plumbing and Safety codes.

• CMA recommends utilizing a water softening system to maintain water hardness measurements of 3.5 gpg (grains per gallon) or less. This will assure maximum results and optimum operation of the dishmachine.

Summary Specifications: Model GL-X

The GL-X dishmachine is a low temperature undercounter dishmachine designed to produce sparkling clean all wares utilizing our unique Hot Water Assurance System. The GL-X is easy to use, fast and efficient, while conserving water, energy and chemicals. Built-in sustainer heater provides continuous 130°F hot water every cycle. The GL-X is constructed entirely of stainless steel and is equipped with an integrated chemical delivery system. The GL-X incorporates a pump purging system that improves results by eliminating soil and chemical carryover during rinse cycle.

Advisory: CMA does NOT endorse "Tankless On-Demand" water heaters for use on CMA Dishmachine products. CMA DOES endorse, and highly recom-mends, the standard "tank" style water heaters, sized properly to handle each particular facility with their water heating requirements.
