## HIGH HEAT SERVING TOOLS

FOOD GRADE NYLON FOR HIGH HEAT RESISTANCE

- Durability – 13% more fiberglass – adds strength making utensil durable enough for heavy-duty commercial use, won't crack, twist or bend
- Heat resistant to 480°F/250°C
- Curved ergonomic handle features an "easy pick up" design when laying on a counter
- Flexible and pliable yet sturdy and strong
- Easy to clean

*Fish/Omelet Turner*

Heat resistance – up to 400°F/204°C

**Pancake Turner**
