

## RANCILIO Classe 9 USB

Top range Traditional Espresso Machine

### ESPRESSO MACHINE SPECIFICATIONS:

Classe 9 is the perfect combination of stylish design and technological excellence. It is made from tough materials, such as stainless steel and aluminum and features an LCD screen with shot timers. Each group head can be powered on or off independently to optimize energy consumption. Features include USB for saving parameters between machines or for unique coffee settings and two hot water buttons for two different temperatures and/or quantities of water delivery. C-lever steam wand handle is the most ergonomically designed handle for easy control steam pressure. The Classe 9 is the perfect addition to the front-of-the-house in any fine dining establishment or café. Available in 2, 3, and 4 brew groups.

### WATER QUALITY STATEMENT:

The fact that water is potable is no guarantee that it is suitable for coffee machines. Your water supply must be within these general guidelines:

**SUPPLY PRESSURE:** 30-70 psi  
**HARDNESS:** 2-3 GPG (1 grain of hardness = 17.1 ppm)

Water entering the machine should have a water hardness level of 2-3 GPG at all times. If the water supply is not within this range, a dedicated water softener (if above 3 GPG) or mineral addition cartridge (if below 2 GPG) is required for the coffee machine to operate properly over time (see Rancilio Group North America Water Quality Statement for further details).
