Product Description:

The Empura E-EGM-23FB is a single glass door reach in freezer with a large storage capacity. This freezer features a black powder coated steel construction, externally mounted digital LED display, locking & self closing doors with magnetic gaskets, 4 adjustable epoxy-coated coated wire shelves, and LED internal lighting. This model uses CFC-free refrigerant R290 and an electronic thermostat ensures it maintains a temperature of -10°F.

Intended For Commercial Use Only. Empura assumes no liability for component failure, factory defects or any other damages for units installed in non-commercial foodservice or residential applications.

About Empura Glass Door Merchandiser Freezers:

Empura glass door merchandiser freezers are an economical choice when looking to update or expand your existing frozen merchandising equipment. The heavy duty construction, locking & self closing doors, easy to read digital display, large storage capacity, and bright internal lighting makes these models the dependable workhorses that business owners can trust to keep their product secure and always stored at the proper temperature.
