

EZ-KLEEN® SAUCE BOTTLES

A Better First-In, First-Out Solution

EZ-KLEEN® sauce bottles set the standard for foodservice professionals looking to enhance their operations with a plating and food-prep sauce dispensing solution that's not only straightforward to use and clean but also cost-effective. The innovative "first-in, first-out" design promotes proper food rotation and minimizes waste. And unlike other leading bottles, this design allows bottles to be filled from the top so gravity pulls sauces down towards its leak-resistant dispensing valves, which are shielded from surface contact by a unique cap design.

The smooth side walls of the bottles prevent sauce residue, making cleaning effortless and reducing the risk of bacterial contamination. Color-coded lids prevent cross contamination and make it easy to spot the different sauces at a glance. Interchangeable lids allow for secure storage of leftovers, facilitating quick prep and prioritizing use of older sauces first. Designed to fit standard bottle organizers, EZ-Kleen Sauce Bottle streamlines the prep line for a faster and more efficient service.

EZ-KLEEN sauce bottles are available in 12-, 16-, 20-, and 24-ounce sizes with three valve options for thin-to-thick sauce dispensing:

- Green valve for thin sauces like balsamic vinegar.
- Yellow valve for standard viscosity sauces like ketchup.
- Blue valve for thicker condiments like mayonnaise.

Features & Benefits

- **Interchangeable Caps for Easy Evening Storage:** Switching from valve to solid caps effectively reduces waste while cutting clean up time in the evening, and prep time the next morning.
- **First-In, First-Out Design:** Bottom dispensing design ensures proper food rotation.
- **Easy To Use:** Unique smooth side walls and same-sized openings on both ends make filling, dispensing, and cleaning a breeze.
- **Improved Portions and Presentation:** Our proprietary valve design reduces splatter to make portions more consistent and enhance food presentation.
- **Guided By Gravity:** Gravity directs contents toward the leak-resistant valves.
- **The Perfect Fit:** Solid and valved caps conveniently fit both ends of the bottle.
- **Strong Construction:** Durable polyethylene and NSF certified.

Easy To Use

Same-sized openings on both ends let users easily swap out the valve cap with solid caps

Leak-Resistant Valves

Leak-resistant valves are guided by gravity

User-Friendly

Smooth, easy-to-clean side walls reduce bacteria build up

Quick Identification

New colored caps make it easy to identify different sauces during a busy food prep

Prevent Contamination

Use our color-coded caps to avoid cross-contamination in your kitchen!
