| Installation | Proper installation and installation verification is the responsibility of the owner-user and is not covered by this warranty. Many local codes exist, and it is the responsibility of the owner-user and installer to comply with these codes. Legion equipment is built to comply with applicable standards for manufacturers. Included among these approval agencies are: UL, NSF, ASME/National Board, CSA, AGA, CGA, ETL and others. Our program of constant product improvement makes it necessary for new or improved models to be submitted for testing by these various agencies as they are developed. Therefore, not all models bear the appropriate agency approval or certification at all times. Adjustments such as leveling, tightening of fasteners or utility connections (gas, electric, steam or water) normally associated with original installation are the responsibility of the owner-user or installer. | | | | | | | | |
| Authorized Agency | Legion will replace or repair at no cost, F.O.B. plant of manufacture, any part of all equipment, which becomes defective due to material or factory workmanship within the warranty period. This warranty includes travel time not to exceed lesser of two (2) hours round-trip and mileage not to exceed 50 miles (150 miles round-trip). | | | | | | | | |
| Replacement Parts | Warranty on all replacement parts which are replaced in the field by Legion Authorized Service Agencies will be limited to three (3) months on labor, six (6) months on materials (parts) effective from the date of installation. | | | | | | | | |
