

# Ice Cream Spade Well

model #: **77316-7A, 77316-10A, 77316-13A,  
77316-19**

Ice cream just got better. NEMCO's Spade Well features a continuous flow of water to maintain optimum cleanliness of your ice cream spades and scoops for better food quality. No more flavor transfer and no more cross-contamination that increases your food safety risks.

Wells are available in a variety of sizes—each one designed with wide compartments that allow for easy access to and removal of the spades during rush times. 300-series stainless steel construction, versatile mounting capabilities and optional left- or right-side spigot orientation adapt to any commercial kitchen. For added convenience, each unit is easy to turn off, drain and disassemble for cleaning.

## STANDARD FEATURES

- Well is constructed of 300 series stainless steel
- 3/8" diameter spigot for running water
- Spigot can be installed for left or right side operation
- 2" drain
- Overflow drain tube is easily removable
- Rubber bumper on rim provides protection and sound deadening when removing water from spades
- Design incorporates user friendly rounded corners
- NSF Listed

## ACCESSORIES

- Installation Kit
- Dividers (*except 77316-7A*) - create compartments for holding spades upright
