☐ DP-120D-20GR	5"W x 12"L x 3/4"H	Stainless Steel	TBD

# Rinser Water Inlet Installation

- Always check local plumbing codes first.
- Install in-line water regulator set at 15 PSI from the street water supply (no greater, perfect operating pressure).
- Install in-line one way check valve from the street water supply (prevents pressure drop which can cause leaking).
- Install in-line shutoff for the rinser system from the street water supply (this must be turned off nightly).
- If teed into soda system make sure system can handle the increased water demand. Have plumber install a 45° 1/2" O.D. barb for the drains if line is not hard plumbed into the system.
- Install a shutoff for the rinser water supply if line is not hard plumbed into the system.
