174" (4420 mm)

Item No. _____

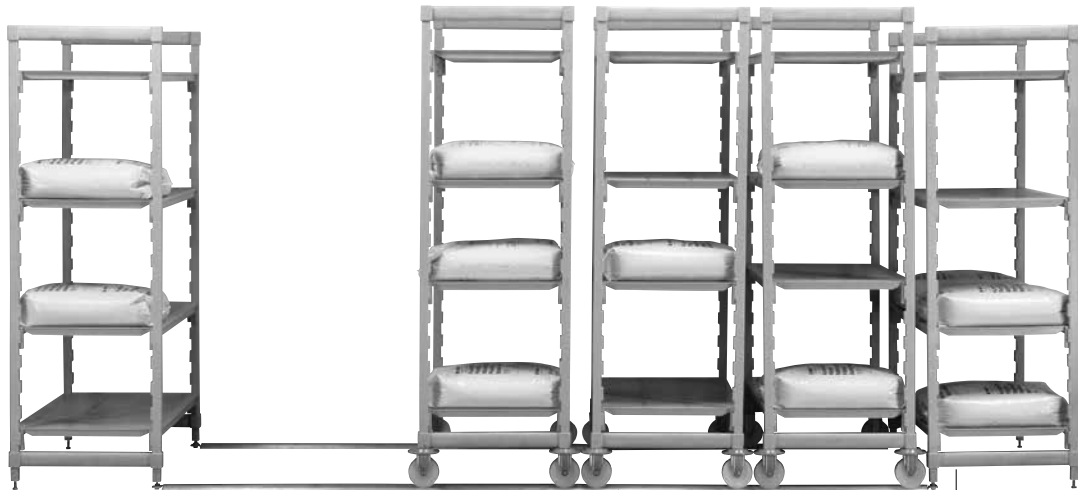

Specifier Identification No. _____

Model No. _____

Quantity _____

High Density Track Kit Includes:

Raised Track, Stainless Steel Leveling Feet, and all necessary hardware for installation.

Features & Benefits

Increases Storage Capacity

Maximize storage capacity by eliminating aisles and utilizing all available space. Ideal for operations with limited space or that need to use their space more efficiently. Floor track system provides safe and easy access to stored product. Heavy weight loads roll securely on raised floor track.

Strong Technology

Maximum weight-bearing capacity of 750 lbs. (340 kg) per Mobile Unit.

Hygienic Design

Raised track ensures dirt will not get trapped, and is easy to clean.

Requires Minimal Assembly

Minimal assembly required, no bolts or drilling necessary.

Flexible Design

Install track system on any type of surface, including tile and uneven floors. Secure into place with a Stationary Starter Unit at each end. Grooved casters roll easily and securely on raised track and can be used on any surface, including tile and choppy floors.
