

Worry Free Installation

*Turn Key Solution
for Blodgett
HydroVection Ovens*

The Blodgett Professional Installation Program is designed to offer our customers a worry free installation and start up experience when purchasing any of our HydroVection ovens. It includes: Staging, Site survey, Installation, Connection of Utilities and Start up.

Installation is provided by Blodgett Authorized Service Agent and is available for HydroVection ovens at time of purchase.

Unpacking

*Setup &
Assembly*

*Utility Connection
& Startup*

HOW DOES THE PROGRAM WORK?

- Add the option to the purchase order with the following required information. Note: Blodgett Professional Installation must be ordered at time of equipment purchase.
 - Customer name
 - Customer ship to address
 - Customer contact
 - Contact phone
- The ASA will contact the customer to arrange site survey, installation and start-up.
- When complete, contact your local Blodgett manufacturing rep to demonstrate the unit.

1 SITE SURVEY

1. The ASA will perform a site survey to assure all requirements for a worry free installation have been met. If there are any anomalies, the ASA will document and present them to the customer. The customer is responsible for resolving any non-compliance at the site prior to equipment delivery.
2. Additional charges may be applicable for non-compliance.

****Once the site survey has been completed, the PO will be assigned a ship date and put into production.*

2 SHIPPING

1. The equipment is shipped to the Food Service dealers designated location listed on the purchase order.

3 INSTALLATION

1. The ASA will uncrate, stack if necessary, assemble stands and set in place.
2. The ASA will remove and dispose of all shipping material.
3. Removal and disposal of existing equipment is not included.
4. The ASA will complete the final assembly of the oven.
5. Installation of a water treatment system is NOT included with this program

4 CONNECTION OF UTILITIES

1. Connect Gas: The ASA will connect the gas hose from the oven to an appropriate gas line connection.
2. Connect Power: The ASA will hook up the oven to an approved disconnect device.
3. Connect Water: The ASA will connect the water hose to the appropriate water feed connection point.

5 START UP

1. The ASA will perform a Factory Start Up according to Blodgett recommended procedures.
2. The ASA will complete the Start Up form.
3. The ASA will send the form to Blodgett.
