

CUT RESISTANT GLOVE

Keep Comfort & Safety On Hand with
Maxx Wear Cut Resistant Gloves

Our newly engineered Cut Glove utilizes high performance fibers reinforced with two strands of stainless steel, providing high levels of cut and abrasion resistance with an improved comfortable fit. Woven with our new technology, our lightweight glove allows your hands and fingers to move freely with minimal fatigue and strain. The Cut Glove is durable and long-lasting and is machine washable and stain and shrink resistant. Designed to be ambidextrous, the Cut Glove allows for more efficient use. Our ambidextrous gloves are available in Heavey Weight 7 Gauge, Medium Weight 10 Gauge and Light Weight 13 cut resistant materials in XS to 2XL sizes. Color coded bound edge provides easy sizing identification and visibility.

Use the Cut Glove to protect your hands when:

- Cutting meat.
- Filleting fish.
- Chopping fruits and vegetables.
- Handling sharp metal or broken glass.

Caution: While the Cut Glove is cut resistant, it is not cut proof or point puncture resistant. Do not use with moving or serrated blades. The Cut Glove is sold individually and not in pairs.
