

Bugambilia®

A G.E.T. Enterprises Company

Handcrafted Resin-Coated Aluminum Buffet & Displayware

Most Items Now In Stock & Ready to Ship!

Ideal Temperature Maintenance

Bugambilia® premium cast aluminum maintains foods' safe serving temperatures for longer durations unrivaled by ceramic, glass, or melamine.

Eye-Catching Appeal

Bugambilia® products are available in 23 colors to create appetite-increasing visual appeal. Assign specific foods an allergen-awareness color or support your brand image with unique colors and designs.

All Bugambilia® colors are 100% foodservice safe for your brand's protection and your peace of mind.

Designed for Durability

The unique Bugambilia® adhesion process creates the most durable aluminum coating available, with the highest resistance to bubbling, peeling, abrasions, and tarnishing.

Each Bugambilia® piece is handcrafted from solid sand-cast aluminum, and is safe for temperatures from -20°F to 200°F.

Versatility & Value

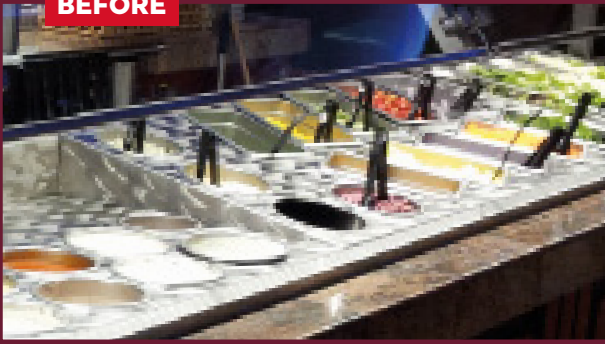

With one of the largest selections of modern shapes, sizes, and colors, Bugambilia® offers more presentation possibilities to fit both your operational needs and brand image.

Need a Custom Shape, Size, or Color?

- ✓ 100 pc. minimum order for custom designs & colors!
- ✓ No mold charges!
- ✓ No minimums for custom tiles!
- ✓ Rapid 4 week lead time!

BEFORE

AFTER

Bugambilia® can quickly create custom pieces tailored to enhance your presentation and grow your business!

We love Bugambilia® platters for our buffet display. They are durable, thus cost-effective. They hold temperature well, making it safer for food service.

Simon Liang, Director of Banquets, Hilton O'Hare
