

POUROVER ESPRESSO MACHINES

GSP023

Astra Pourover machines bring the café experience right to your home or business. Thermocycling system provides absolute temperature consistency and quality coffee to deliver the perfect cup everytime.

KEY FEATURES

- Automatic or manual dosing available
- Low water safety system with alarm
- Manual steam and hot water controls
- Hot water spout
- Quiet internal motor with rotary-vane Procon pump
- Thermocycling system combined with a high-density group head achieves precise temperature control in high volume use
- Self-tamping, non-tamping option available per request

Astra's thermocycling system combined with high-density group head delivers superior temperature consistency.

Semi-automatic
🏠 GSP023

Astra's traditional espresso machines give the barista full control while crafting the perfect cup. Self-tamping, high-density group head, nickel plated copper boiler and temperature stabilizing thermocycling system make this the perfect choice for any operator offering specialty coffee.
