DESIGNER'S CHOICE

## Sunset Collection

The Sunset collection began as a vision to create a contemporary design that would fit in any modern environment. In addition to being beautiful, it would have to be sturdy, easy-care, and pass ASTM testing. With this in mind, we brought in our European design team.

Our plan for the Sunset group was to introduce a total solution for poolside areas, beginning with the chaise and low tables for lounging by the pool. The line would grow to include dining with tables and seating, and then transition to conversation and bar areas with our deep-seating, cocktail table and barstools.

Utilizing our innovative Air-Molded Technology with our proprietary technopolymer blend for the frames, we created strong, stylish & smart designs. We added sophisticated textilene fabric, and the results speak for themselves. All of the slings can be easily replaced, and the chairs stack for simple storage. Of course, our seating meets the ASTM standards.

Sunset tables feature aluminum frames with state of the art HPL Compact tops for long-lasting durability. Sunset dining tables are also ADA compliant!

# Grosfillex®

EXPERT

Grosfillex prides itself on respecting the environment with a low energy manufacturing process that produces no emissions and with a concentrated effort of reducing, reusing, and recycling all other materials. Manufacturing plastic products uses less energy than making similar products from other materials. Grosfillex resin products do not use topical treatments which can peel off and contaminate the water table. Grosfillex resin furniture is 100% recyclable.
