

Three BIG reasons

**to use
Ice•Device**

**Improved
food
safety**

**Improved
worker
safety**

**Increased
labor
savings**

FOLLETT

Improved food safety

- ◆ Ice•DevIce fills Totes™ for you – no scooping, no shoveling, no hands in ice
- ◆ Cart lid protects ice while transporting through public areas
- ◆ Cart has drain for sanitary water disposal
- ◆ Bail-style handle and shape of Tote keep hands out of ice when pouring into point-of-use containers

Improved worker safety

- ◆ Ice•DevIce allows you to control ice flow. Less ice spills on floors, reducing slips and falls.
- ◆ Easy to maneuver carts reduce risk of back strain and injury, no lifting heavy buckets
- ◆ Ice•DevIce is designed for safety. Filled weight of each Tote is the OSHA maximum – 25 lbs.

Increased labor savings

- ◆ Gravity ice drop moves ice fast! Ice•DevIce is six times faster than scooping.
- ◆ Carts move 75 lbs of ice at once; four times faster than carrying buckets

Dispense

Lightweight poly lift door

- ◆ Proven durability withstands high abuse
- ◆ PowerHinge™ holds door open until pulled down – no door catches to replace
- ◆ Molded-in gasket won't crack, mold or discolor
- ◆ Rounded corners reduce chance of employee injury

SMARTGATE® technology

- ◆ Controlled ice flow – locks at three levels for maximum access to ice with minimum spillage
- ◆ Breaks many bridges with just a “jiggle” – stubborn bridges can be broken with paddle through the gate

Scoop and shovel-free ice access

- ◆ Patented Ice•DevIce chute focuses ice into Tote or cart without spillage; removes easily for cleaning
- ◆ First ice in, first ice out design of Follett bins ensures that ice is fresh and clean
- ◆ Dispense gate slides easily up and down manually – gravity moves the ice into Totes six times faster than scooping

Traditional Ice Dispensing

Cube and nugget ice only.
(Not recommended for flake ice)

T ransport

D eliver

3-wheeled cart design is easy to maneuver, lightweight. Three 25 lb Totes move 75 lbs of ice quickly, safely. Protective flip-up lid keeps ice clean, safe from contamination.

Totes are dedicated ice containers shaped and sized for reduced spillage and ergonomics.

Totes are non-nesting to avoid cross-contamination.

Totes are easy to lift and empty. Deliver ice quickly, safely, easily.

Traditional Ice Delivery

Traditional Ice Transport

Ice•Devlce is offered with a variety of carts to meet your needs. Please see other side for configurations.

Hundreds of configurations to suit varied needs

Ice storage capacities from 460 lbs (209kg) to 4640 lbs (2105kg)

SmartCART 75

Cambro ICS125L

SmartCART 125

SmartCART 75

- Includes 3 Totes that move 75 lbs of ice quickly and easily
- Four times faster than carrying buckets
- Ideal for restaurants and cafeterias

Low-Profile Ice•Devlce

- Use when low ceiling height design is a limitation (remember to include ice machine height)
- One 25 lb Tote included

ICS 125L Cart

- Cambro cart fits under bar heights as low as 31"
- Slide-back lid for easy and compact access
- Ideal for concession stands and bars where space is limited

SmartCART 125

- Fold-back lid is easy to flip open and closed
- Convenient in open work areas - cart is 33" high
- Use with portable bars

Additional totes, ice management tools and attachments are available.

Bagger

Scoop

58.5" Paddle

46.5" Paddle

Rake

Totes

Bagger

- Twice as fast as scooping
- Includes bagger attachment
- Ideal for convenience stores and anywhere packaged ice is sold

Also available: Double door models for large scale operations
