

Pineapple Corer Model S-96 1S Stainless Steel

Fresh-cut pineapple sales are dramatically enhanced when "ready to eat" pineapples are displayed.

Features:

- Heavy duty free-standing machine equipped with wheels for easy mobility. Stainless Steel Legs.
- The S-961 includes 96 mm diameter (3¾") cutting blades perfect for 5-8 count pineapples. You have the option of purchasing the 101mm diameter (4") cutting blades to cut larger pineapples or 92mm diameter (3½") for smaller pineapples.
- Corrosion-proof stainless steel cutter bed.
- Easy access to cutting mechanism for cleaning and maintenance.
- Attractive appearance suitable for in-store demonstrations.
- Complete replacement parts inventory maintained for immediate shipment.
- The prep table is optional.
- We offer a blade sharpening program to save you money.
- This corer is designed with a knife that turns 90 degrees when coring and peeling pineapple. Because of the design, there is no waste or crushing of the fruit, especially fruit that is more ripe.

You will be coring and peeling pineapples in seconds using the S-961 Pineapple Corer.

This heavy duty free-standing machine is equipped with wheels for easy mobility & a corrosion-proof stainless steel cutter bed.

You will save time and labor with this easy-to-clean corer— you can simply hose it down!
