EVERYDAY STANDARDS IN GLASSWARE

INTRODUCING
KoreWare™

BASIC, ESSENTIAL AND COMPLETE: this is the foundation for the new KoreWare collection from Arcoroc.

The most common shapes, styles, and sizes of reliable glassware standards are captured in this new collection. Whether it's stemware, tumblers, mixing glasses, or water goblets, operators can expect the same quality and service they have come to trust from ARCOROC.

The new KoreWare collection is unique not only because it provides the glassware items that are used most often

in foodservice, but because many of the items have been upgraded to be fully tempered or rim tempered — providing extra strength to keep the glassware in service longer. Also, to help round out specific styles and designs within the KoreWare collection, we've added new sizes to broaden the offering and make it easier for customers to make a single, complete installation or replacement.

Arcoroc KoreWare offers a complete collection with the upgrades you need, priced right.
