

Assembly and Set-Up Requirements for Doyon SRO1 and SRO2 Signature Rack Ovens

Assembly and set-up of Doyon's Signature Rack Ovens requires factory installation. Set-up and installation are not included in the price of the oven. There is a separate fee for this service and it may vary, depending on where the oven is installed. Contact Doyon for details prior to ordering.

The **Standard Site Assembly Fee** excludes Hospitals, Prisons, Federal/Government Installations, Marine, and other locations with restricted access**.

The standard fee includes: set equipment in place (uncrate and assemble). Start-up consisting of proper equipment function and calibration.

A thorough site inspection must be conducted prior to installation and must be ready to accept the oven (this is the responsibility of the kitchen contractor and/or end user).

The Standard Site Assembly Fee DOES NOT include: site inspections, evening, weekend, over-time (or labor on standby), unload, move, transport (or handle the unit in any way to its final destination in the facility), removal of existing equipment, rack assembly, disposal of packaging, venting, electrical, mechanical and plumbing connections, or customer demonstration.

** This standard assembly service applies to locations within 50 miles of the Doyon and NU-VU servicer agent. Special rates apply for locations more than 50 miles from a Doyon & NU-VU authorized agent. Please contact Factory for rates.

The **Special Site Assembly Fee** includes, but is not limited to, Hospitals, Prisons, Federal/Government Installations, Marine and other locations with restricted access**.

The special site assembly fee includes: set equipment in place (uncrate and assemble). Start-up consisting of proper equipment function and calibration.

A thorough site inspection must be conducted prior to installation and must be ready to accept the oven (this is the responsibility of the kitchen contractor and/or end user).

The Standard Site Assembly Fee DOES NOT include: site inspections, evening, weekend, over-time (or labor on standby), unload, move, transport (or handle the unit in any way to its final destination in the facility), removal of existing equipment, rack assembly, disposal of packaging, venting, electrical, mechanical and plumbing connections, or customer demonstration.

** This standard assembly service applies to locations within 50 miles of the Doyon and NU-VU servicer agent. Special rates apply for locations more than 50 miles from a Doyon & NU-VU authorized agent. Please contact Factory for rates.
