

STEAMERS

POWERFUL MACHINES

STA1800 | STA2400 | STA4800

Increase output in your café with a dedicated steamer or use it to create an endless menu of specialty drinks including hot chocolate, juice, tea, and smoothies - a great option to cook scrambled eggs or reconstitute soup as well. These reliable machines are built to last and are easy to maintain.

KEY FEATURES

- Vacuum valve prevents milk from entering the boiler
- Low water safety system with alarm, pourover machines only
- Quiet internal motor with rotary-vane Procon pump
