ULTRA-MAX® HEAVY-DUTY CHARBROILERS

Ultra-Max Heavy Duty Radiant Gas Charbroilers are designed and built in the U.S.A. to deliver maximum performance in the most demanding foodservice applications. Available in 24", 36", 48", 60" & 72" widths.

Ultra-Max 800 Series Radiant Charbroilers

- Heavy cast iron burners deliver 20,000 BTU burner every 6" of cooking surface to sear in flavor and cook faster
- Heavy cast iron reversible grates with thin-and-thick contact surfaces can be inclined for maximum cooking flexibility and better marking
- Heavy duty, high strength steel alloy radiants are long-lasting, and won't crack or break like cast iron
- Cool-to-the-Touch technology keeps your operating zone comfortable and safe
- Heavy duty chrome knobs are comfortable, durable and attractive for years of hard use
- Standard 5" Stainless Steel backsplash with tapered sides help keep your kitchen clean
- Lava rock units include 1 bag of lava rocks per 12" section
- Extra-deep, large capacity water pan reduce clean-up time and help reduce secondary fires. Compare to competitors with the ruler in the corner!
- We stand behind our products for the long haul. Our **Industry Leading 3-Year Warranty** means you buy with confidence. Why settle for less?
