#### Features & Benefits

- Use in walk-in coolers, freezers, dry storage, warewashing areas, loading docks or front of the house. Withstands storage temperatures -36° to 190°F (-38° to 88°C). Impervious to moisture, chemicals, salt, food acids and humidity.
- Posts and traverses are made of a revolutionary, extremely strong composite material with a smooth, easy to clean surface. Stronger than common wire shelving and lighter in weight than Camshelving Premium Series. Traverse dovetails are separate from the posts and attach easily to secure the shelf traverses.
- Premium caster is made of highly durable, non-corrosive plastic with a 5" (12,7 cm) swivel, non-marking thermoplastic rubber wheel. Total locking brake locks both swivel motion and the wheel.
- Optional donut bumper offers added protection during transport and when maneuvering mobile units into place against walls or alongside other units for storage.
- Posts and traverses wipe clean. Traverses and shelf plates remove easily for cleaning.
- Shelf traverses can be removed and adjusted at 4" (10,2 cm) increments.
- Requires some assembly with minimal parts. Use a rubber mallet only.
- Lifetime warranty against rust and corrosion (posts, traverses and shelf plates).
- Available in 1 color - Speckled Gray (480).

### WEIGHT BEARING CAPACITY

Weight must be evenly distributed across the entire shelf.

MOBILE UNIT	Unit only*	UNIT LENGTH 24-60"
		750 lbs.

\* Due to the weight bearing capacity of casters, maximum weight load on an entire Mobile Unit is 750 lbs.

#### Approvals

Post Connectors, Corner Connectors, Floor Fastener, Wall Fastener, Identification Tags, Shelf Rails, Single Shelf Security Cage, Peg Board and Shelf Divider Bars are not NSF listed.

Information and specifications are subject to change without notice. Please confirm at time of order.
