

Clayton

Flatware that combines high function and modern design

FLATWARE

Pattern Features

- Eases grip fatigue
- 18/10 high polish
- Can help facilitate movements from plate to mouth for a more dignified dining experience

Clayton features a unique design from handle to tines. These items are designed for users that may have lost some motor function in their hands. Shorter handle provides greater leverage and control. Rounded “knob” handle can be gripped “over-hand” to help ease grip fatigue. Clayton is a little heavier to reduce effect of tremors while eating – the hollow handles prevent the flatware from being too heavy and for overall balance. Spoon, fork and knife shapes facilitate easier scooping and cutting functions.

Like all **Libbey Intuitive Diningware™**, Clayton flatware helps create dining experiences that are more inspiring, accessible and dignified for all. Libbey combines our passion, perspectives and full-spectrum tableware selection to deliver insights-driven solutions that support your success.
