

Project Name: _____

Item#: _____

Quantity: _____

iLume, International 2791-ILT-220

Item #	Application	# Of Heating Zones	Peak Power
2791-ILT-220	Heat lamp	1	300 W

Description:

Redesigned with a UK/ Type G plug, the iLume infrared, multi-positioning heat lamp combines modern design with superior functionality for better presentation and performance over traditional heat lamps. Powered by long heat wave technology, the iLume offers more even heat distribution with greater energy efficiency than your standard heat lamp by penetrating heat energy into the food instead of simply warming the foods surface.

Construction & Performance Features:

- Dual articulating joints, 170° swivel
- 12" Carbon fiber long wave infrared heat tube
- UK Plug (Type G) for international use
- Lightweight, less than 20 lbs
- Collapsible with locking feature
- Auto-shut off safety feature
- Coated aluminum, matte black finish
- Counter top with low profile base
- 2 LED light setting: low and high
- 5' power cord with plug
- ON/OFF power Switch

Standard Warranty:

1 year Spring USA limited warranty. See springusa.com/warranty for more details.

Available Accessories/Alternate Configurations:

- Spring USA warming trays
- iLume Heat Lamp (US-version)
- Hold-only Warming Induction Ranges
- Cook & Serveware

See Spring USA Catalog or visit springusa.com
