

Ergonomic for Staff, Quiet for Patients

New!

- Ergonomic design with easy access to trays from both front and back of the cart.
- Lightweight and easy to maneuver.
- Quiet casters reduce noise level in hallways.
- Ten (10) tray capacity is ideal for room service.

CAMBRO
Healthcare

Easier for Staff and More Restful for Patients

The Dual Access Meal Delivery Cart makes loading and unloading of patient meal service trays easier for staff. With two doors on opposite sides, this 10-tray cart eliminates reaching for trays that are in the back of the cart. Quiet casters reduce the noise level in hallways to promote patient rest and recovery.

- Durable construction, made of one-piece, double-wall polyethylene.
- Easy to clean, won't rust, dent, crack or chip.
- Non-electric and requires no assembly.

Molded-in rails ensure quiet meal delivery, rail spacing 5/4" (13,3 cm).

Holds up to ten 15" x 20" (38 x 51 cm) trays.

Molded-in marine rail provides an additional tray landing surface. *Marine rail is designed for use during service, not transport.*

Durable, lightweight, self-venting, ABS door is non-insulated and opens a full 270°.

Molded-in full-perimeter bottom bumper protects the cart, walls and furniture.

Menu clip holds routing directions or content lists.

Center opening provides self-venting airflow, optimizing food quality and humidity.

Large, molded-in ergonomic handle makes it easy to transport and maneuver.

Polyurethane insulation ensures quiet meal delivery and provides structural strength.

Four quiet, non-marking nylon casters (2 rigid, 2 swivel with brake).
