#### **EOMH Series** Model: EOMH-48-W-35-T

## Refrigeration System

- Bottom mounted, self-contained and fully detachable Blizzard R290 condensing unit uses environmentally friendly, EPA-compliant R290 refrigerant with zero (0) Ozone Depletion Potential (ODP) and three (3) Global Warming Potential (GWP). Blizzard R290 is easily replaceable and requires no on-site brazing
- Front air intake and rear air discharge design allows side by side installation.
- Electronically commutated (ECM) evaporator fan motors achieve rapid cooling with less energy consumption.
- High performance, auto-reverse condenser fan motor supports compressor ventilation and condenser coil cleaning. Refer to owner's manual for full maintenance instructions.
- Large capacity, corrosion-resistant condenser and evaporator coils.
- Self-maintaining, energy-efficient condensate drain pan requires no external drains or electric heaters. Pre-wired and ready to plug, 115V/60Hz/1Ph, NEMA 5-20P.

### **Cabinet Construction**

- · Black or white modern exterior has moisture-resistant panels and field- replaceable tempered glass.
- Heavy-duty stainless steel interior has perforated back wall for efficient air flow. Includes floor drains for ease of cleaning.
- · Galvanized steel top, bottom and rear.
- · 2.5" thick high-density polyurethane insulation.
- · Integrated retractable night curtain saves energy and provides security.
- · 5" swivel casters with locks on front set. Leg stabilizers standard for all models.

· Shielded LED bar lighting under shelves and canopy provide bright, high color illumination at lower heat output. On/off switch saves energy.

- · Adjustable by height and angle. Position it flat or slanted downward at 10°.
- Heavy duty stainless steel shelves include price tag moldings.

### Temperature Control

- · Factory preset temperature of 35°F maintains a combined average product temperature of 40°F or less.
- · Audible overheat protection alarm for compressor and condenser coil.

## **Recommended Operating Conditions**

- Conforms to NSF standard 7 TYPE II designed to operate in an air-conditioned environment where temperature and humidity do not exceed 80°F and 55% relative humidity.
- · Must not be installed near ventilation systems, fans or exterior doors or windows that will disrupt the air curtain and compromise the function of the cabinet.
- Must not be installed in direct sunlight.
- · In built-in applications, a distance of 6" is required on the front, back and top exterior for ventilation purposes.
