

COOKSHACK

Trailer for Rotisserie Units

The Cookshack Trailer is designed to transport a Fast Eddy's™ by Cookshack FEC300, FEC500 or FEC750. Whether you need to tow your FEC to a barbecue competition or to a catering event, this trailer will make your smoking easier. Vehicle Identification Number (VIN) is available so the trailer can be registered and tagged if necessary.

Features

- 3500# torsion axle
- Constructed from 3/16" C-Channel and 2" tubing
- 15" radial trailer tires
- Removable tongue for easy and secure storage; remove the tongue at the vent and do not worry about someone driving away with smoker
- Lightweight and easy towing for small vehicles
- Powder-coated in black
- Standard 4-wire flat plug light hookup
- 87.5" width on the trailer for the FEC300/500 makes it fit in van-type commercial shippers and will fit through most garage doors

Brake Lights

Attaches to a 2" ball size
