High performance  
with a wide range of  
solutions and options.

### Product description

Its high packaging quality and productivity make the B3 ideally suitable for efficient packaging of fresh food such as meat, sausages/cold cuts, seafood, cheese, fruit and vegetables in retail. The space-saving, fully automatic wrapper with integrated labeler is very flexible, e.g. in terms of positioning. Moreover, the wrapper processes a wide variety of package sizes. In addition, you are very flexible in terms of label positioning. The automatic applicator makes it possible. The visible overall result: an appealing product presentation.

The user interface of the B3 is based on the RetailPowerScale device software which is also used for the counter scales. Uniformity which allow easy integration in existing IT infrastructure. Lengthy staff training is a thing of the past. The design of this combined solution is hygienic and allows easy servicing. Flat housing surfaces and large device accesses reduce the accumulation of dirt. An advantage which is reflected in thorough and efficient cleaning.

B3

### Highlights

- High-end packaging machine: Throughput of up to 28 packages/minute
- Fully automatic and easy operation: The entire wrapper is controlled via a common user interface
- Flexible packaging options:
  - Wrapping for numerous package sizes with only one film width
  - Use of different film widths
- Market leading packaging result: almost no wrinkles and very good sealing
- 3D applicator: Labeling at any position on the top of the package, also with a rotation
- Sales promoting second label: ideally suitable for promotional offers or customer information, e.g. notes regarding low fat or regional products
- Reduced downtimes: Label rolls with a diameter of up to 300 mm possible
- Compact design for easy installation and space-saving use
- Service-friendly: Optimized access to all maintenance areas
- Hygienic design:
  - Flat surfaces for efficient cleaning
  - Optimized access for cleaning
- Reliable results: High-performance multi-interval weighing system
- Electrical system without compressed air connection

### Options

- Product exit straight/left-hand
- Various weighing ranges
- WLAN
