Subject: Drip Tray Cleaning Brush

Date: 4/12/2019

Ladies and Gentlemen,

We are pleased to inform you about the new cleaning brush for the RATIONAL combi-steamer tabletop units, models 61/101 and 62/102:

Drip tray cleaning brush

The drain channel of the unit's drip tray can become blocked if the unit is frequently used for grilling or preparing foods containing a large amount of fat or protein. This often results in unavoidable service work.

Use the new cleaning brush frequently if the unit is being used for grilling or preparing foods containing a large amount of fat, to loosen blockages in the drainage system. Then rinse the drain channel by rinsing it with 1-2 quarts of warm water.

Use only the original RATIONAL cleaning brush. It ensures you do not cause any damage to the drainage system.

Please observe the information included with drip tray cleaning brush. Instructions on cleaning the drip tray can also be found in the Original Operating Instructions Manual included with recently delivered RATIONAL combi-steamers.

Item numbers

Drip Tray Cleaning Brush

N°: 60.75.779

Availability

The article can be ordered from 4/15/2019.
