Fibrox® Pro Dual Grip

Ergonomically designed, two-component, non-slip handle

NSF Approved

Features the same blades as our world-renowned Fibrox® Pro line

Available: May 2019

COMFORTABLE AND EFFORTLESS – WITH NEW TWO-COMPONENT HANDLE

Our New Fibrox® Pro Dual Grip Breaking and Boning Knives are designed for effortless cutting, featuring an ergonomic, two-component, non-slip handle. Equipped with the same blades as our world-renowned Fibrox Pro line that glide through meat with ease, while the new Dual Grip handle offers maximum support to reduce

hand and wrist fatigue, making these tools feel less like knives and more like an extension of the hand. With an NSF seal of quality, you can rest assured that these knives are made to the highest sanitary standards for commercial kitchens, making this line an essential addition for the meat processing professional.
