### HELPFUL SUGGESTION:

Installation is easier if all posts are marked first to indicate desired shelf locations. Lay posts on floor, with top or bottom of posts against a wall or straight edge. Mark all posts, using a magic marker or grease pencil.

### Step 1 - Assemble casters to posts.

Drive in caster using a hammer or mallet. Several solid blows are usually required.

### Step 2 - Attach split sleeves (for bottom shelf) to posts.

• The wider part of the taper goes toward the bottom.
• Make sure rib on split sleeve is seated into a groove on the post.
Note: The number covered by the split sleeve indicates approximate height of shelf.
