* Varies per order.

Step 1 - While on its side, mount undershelf to legs at desired height. Seat one leg at a time.

• Secure legs to undershelf with set screw* (using 5/32˝ allen wrench provided).

• Each corner must be at the same height from bottom of legs, or shelf collars could fail.

• Make sure holes in rear legs are facing each other.

NOTE: Undershelf must be level. Use care not to overtighten undershelf set screws* or failure will occur.
Recommended height from the floor to the top of undershelf is 10˝.
