## **PRODUCT SPECIFICATION**

### **Plywood Folding Table**

**Model #:** 600 Series Plywood  
Equivalent to Howe 200 Series, Maywood Original Series™, and King Arthur MC Series Tables

**Updated:** December 2006

#### **Table Top**

##### **Core Construction**

5/8" bb/cp plywood, sealed both sides with a walnut sealer stain, then finished with ultraviolet light cured polyurethane on top (3 coats) and bottom (1 coat).

**OPTIONS** A white vinyl foam padding option is available on all 600 Series tables for an additional charge. Foam is laminated to an uncoated plywood top surface.

##### **Edge Treatment**

Standard edge is a proprietary "C-CHANNEL", wrapped aluminum metal edge molding, with barbed "T" inserts into a routed groove in the solid plywood core. Square corners are standard. Edging designed to accept all industry standard skirting clips.

#### **Table Top Support**

Self-supporting and "self-leveling" steel chassis, consisting of two each 2" x 1" x 1/8" rails constructed of 12 gauge, rolled, high carbon steel, running the length of the table. Stacking plates are secured to ends of each rail. Support structure/rails are attached to tops with carriage bolts. Understructure and legs are joined to function as a one-piece "unitized chassis".

#### **Leg Assembly**

Table legs are constructed of 18 gauge, 1.5 inch square steel tubing. A 1.5" x 1.5" stretcher piece or leg brace is welded between the top of leg for added strength and stability. Leg assembly is riveted to side rails with 1/4" solid steel rivets. Each leg is braced with a 13 gauge steel stock, riveted to the rail on one end and the table leg on the other. Legs lock in place with a push button/trigger lock mechanism, and are capped with non-marking plastic glides. Legs are attached to table top with countersunk carriage bolts. Standard table height is a nominal 30".

#### **Metal Finish**

All metal parts are treated for corrosion resistance and paint adhesion, then finished with a baked on black epoxy powder coating. The result is a high quality black "matte" finish that offers superior resistance to abrasion, marring & scratching.

#### **Warranty**

PS Event/Palmer Snyder warrants that all plywood laminate folding tables will be manufactured with quality materials and workmanship. Manufacturer further agrees to repair or replace promptly any parts, which by reason of defective material or workmanship shall fail under normal use for a period of 5 years from date of acceptance. All warranty issues are subject to management approval.
