

AQUATEMP™/ROAST-N-HOLD™ GENTLE CONVECTION OVEN MODEL CO-151-HW-UA-6D (HALF SIZE)

FEATURES AND BENEFITS:

- Roast, cook, bake, reheat and hold with precise temperature and humidity control. Slow convected air system promotes natural browning for flavor and seals in natural juices.
- Moist heat, dry heat or a combination of both allows for a variety of food preparation and holding.
- Full 4700 Watts of power allows for reheating of prepared meals or bulk items. Maximum temperature 350°F. (176.5°C.).
- Standard 1850 Watt water heater with automatic water fill system and low water indicator. LED and water heater shut off when water is at critically low level.
- Standard solid state electronic control with large, clean, easy-to-read and operate LED digital display to ensure holding at precise food temperatures.
- AquaTemp system maintains optimum food texture through continuous monitoring of both temperature and humidity. Temperature and humidity values are measured, displayed and controlled through intuitive solid state controller. Air temperature is prioritized over humidity to ensure food safety.
- Roast and hold over 120 lbs. (54 kg.) of meat in just 7 sq. ft. of floor space.
- Non-venting oven, permitted by most local codes, provides easy, inexpensive installation.
- Stainless steel construction throughout for ease of cleaning. Smooth interior coved corners prevent food particle/grease buildup.
- Field reversible insulated door prevents temperature loss. Silicone door gasket for proper seal. High temperature ceramic magnetic latch for "easy open" and security during transport.
- Safety conscious anti-microbial latch protects against spreading germs. Standard with right hand hinging; left hand hinging available upon request.
- Non-corrosive stainless steel wire universal angles accommodate a large variety of pan sizes on adjustable 1-1/2" spacing. Supplied with six sets of angles and three raised wire grids.
- Heavy duty 5" swivel casters, two with brakes. Provides mobility when fully loaded.

Deluxe Models (-DX) have 18 factory or field programmed cook & hold cycles. Each programmed menu can be customized for exact time and temperature needs. Probe cooking includes one 6" meat temperature probe and port.
